Maximum number of platform occupants	3		

Why choose Genie?

The Genie® Telehandler Work Platform is designed, manufactured, tested and approved by Genie and features a high capacity with an overload system as standard. The Work Platform is fully integrated with the Telehandler's control system, which automatically recognises when the Work Platform is attached and limits the Telehandler accordingly. The Work Platform has been designed with the operator in mind with dual extension decks, a rotary actuator for platform rotate and chassis tilt alarm/interlock.

The Work Platform complies with Australian Standards AS 1418.19, AS 1418.10 and guidelines published by the Elevating Work Platform Association of Australia Inc.

Applications include...

- Railway overhead maintenance
- Tunnel work
- Bridge works
- Quarry sites
- Plant facility maintenance
